Phil – In case you haven't seen this before, attached is a ppt re: flyovers in Uinta Basin from Cindy B. Slides 12 and 13 reference use of info in NEPA.

Thanks,

Jennifer

Hey IA Gang -

First good news - Kate Gregory has the go-ahead from her Air Program manager (Gail Fallon) to support this IA effort with BLM for this project. She is a P.O. but has not done an IA before. Joy, I mentioned to her that you had offered your, Rich and Robin support in learning/navigating the IGMS system on this IA.

Secondly, I wanted to provide this PowerPoint to you all so you could see what the project is all about - it's very exciting and important work. FYI, to even reach out to BLM and UDAQ on this project and potential collaboration, we have briefed Janet McCabe and Cynthia Giles on this effort and have their go-ahead on it.

Financing So Far:

UDAQ has an agreement already in place with Utah State University (USU) working together on a ground-based IR survey study. The USU researchers are able to add this complementary scope of work to their project. BLM can move money to UDAQ through their annual Assistance Agreement already, in place. BLM has said EPA can either move our contribution to BLM, to UDAQ or directly to USU.

Chaps -

I jumped the gun a bit sending this out to you as I was darting out the door for a long weekend yesterday afternoon. Please use the version attached here (UB_AerialIRproject_062416.pptx) which incorporates Phil Strobel's edits.

Thanks,

Cindy Beeler

Leonard and Brock –

Attached is a powerpoint presentation that provides details on purpose of project, benefits, and details on the project plan cost & schedule.

We need to start figuring out the money thing and how to best contract this work – Brock and I had a conversation this afternoon. I will check in with our financing people here in R8 on how we get the EPA contribution to UDAQ - Brock, I'll call you when I learn more. But we are left with the challenges of a sole source justification.

We need to work together to develop a deliberate, well thought out communication strategy.

Leonard, let me know what you need from me and good luck with your meeting son this next week.
